What we do

The GÉANT Association is a not-for-profit and membership organisation owned by the National Research and Education Networks (NRENs) of Europe. It develops, delivers and promotes advanced network and associated e-infrastructure services, and supports innovation and knowledge-sharing amongst its members, partners and the wider research and education networking community.

The role

For over 20 years, GÉANT has become a fundamental element of Europe's e-infrastructure, supporting excellence in research, education and innovation. This is an outstanding opportunity to take a strategic leadership role in further progressing GÉANT as a high performing membership organisation.

To be a success in this highly visible role you will have significant experience of interacting with members, government agencies and partner institutions, raising GÉANT's profile while working alongside the Board to continue the longer term success of the organisation. You will also be responsible for developing the vision for GÉANT, developing a new strategic plan and leading a programme of strategic initiatives.

This is a significant leadership role and you will be responsible for listening to, finding and building consensus across the GÉANT community in order to deliver effective pragmatic joined up solutions.

An organisation of significant influence, GÉANT requires a CEO of the highest calibre. The ideal candidate will combine excellent leadership and communication skills with the ability to inspire innovate and influence.
