About the EUDAT CDI

With a network of more than 20 European research organisations, data and computing centres in 14 countries, the EUDAT Collaborative Data Infrastructure (CDI) is one of the largest infrastructures of integrated data services and resources supporting research in Europe. It is designed to address the full lifecycle of research data, representing a strategic solution to the challenge of data proliferation in Europe’s scientific and research communities and it is realised through an ongoing collaboration between Service Providers and Research Communities working as part of a common framework for developing and operating an interoperable layer of common data services. The CDI services cover data access, data storage, data discovery and metadata, persistent identification, data management, authentication & authorisation, service management infrastructure and Research Data Management (RDM) training & consultancy. More information at www.eudat.eu

OUTREACH & EVENTS

PRACE has a number of outreach activities targeted at the current and next generation of computational scientists and PRACE users. Below are two of our ongoing and upcoming activities.

Outreach to Universities

The PRACE Outreach to Universities programme, is a one-stop shop for the latest student-centric information, educational opportunities and more. These activities are especially designed to encourage advanced HPC, Computational Science, Simulation and Data Science studies and highlight their benefits and value.

Sign up to the PRACE Outreach to Universities programme mailing list to be kept informed of all PRACE activities which are aimed for students.

PRACEdays18 and European HPC Summit Week 2018

The European HPC Summit Week 2018 in Ljubljana will gather together the main HPC stakeholders in Europe. Similar to previous years, this edition will also offer a wide variety of workshops covering a number of application areas where supercomputers are key, as well as HPC technologies and infrastructures. PRACEdays18 is the central event of the European HPC Summit Week, and is hosted by PRACE’s Slovenian Member ULFME – University of Ljubljana, Faculty of Mechanical Engineering.

Registration for the European HPC Summit Week 2018 and PRACEdays18 is open. The deadline to register is 7 May 2018.
